

SoyLube™ Retail Products

SoyLube™

ELM's line of retail products offer the first complete series of lubricants designed for retail, farm and fleet, and hardware stores. These products are packaged for convenience and are in tubes for greases and other containers for liquid lubricants. The grease tubes are packed in carrying boxes of 10 and are offered in floor displays containing 12 boxes of 10, in auto feeders containing 10 tubes for point of purchase; and in table top displays for point of sale.

Premium Performance, Competitive Price, Farmer Friendly!

Floor Display

ELM's SoyLube floor displays offer convenience for the retailers for being self-contained and easy to display on retail store floor. Each floor display contains 12 boxes of 10 tubes or 120 tubes. The floor display is re-usable and has a small foot print for conservative space use.

Point of Sale Displays

ELM's SoyLube Point of Sale displays offer convenience for the retailers for being self-contained and easy to display. The auto-feeder conveniently hangs on shelving for point of purchase single tube sale. The tabletop display offers convenient point of sale opportunity.
